

City of Newport, Rhode Island Press Release

City of Newport - UV Disinfection and Easton Pond Dam Improvements Projects Workshop

The City of Newport will hold a workshop on Tuesday evening, August 25, 2009 to provide an update to the City Council prior to finalizing the design for construction bidding purposes on the Ultra Violet (UV) Disinfection System Project for the Moat discharge onto Easton Beach and the Easton Pond Dam Improvement Project. City staff and the City's consultant, Fuss & O'Neill, will provide presentations on these projects.

The workshop will take place in the Council Chambers on the Second Floor of City Hall, 43 Broadway, at 6:30 p.m. The workshop is open to the public.

Dated: August 20, 2009
